

Digital Support Operative Card

The Digital Support Operative card requires an applicant to hold a Level 2 award or technical qualification in one of the following disciplines:

- Data Centre Operations
- Digital Communications
- ICT Systems and Principles
- Intelligence Analysis
- Mobile and Operating Systems
- Networking, Network Systems and Architecture
- Network or Cyber Security
- Network Principles
- Programming
- Software Development
- User Skills
- Wireless Infrastructure

The following are some of the CompTIA awards which are recognised for this card:

- CompTIA ITF+ (IT Fundamentals)
- CompTIA A+
- CompTIA Network+
- CompTIA Security+
- CompTIA Cloud Essentials+
- CompTIA Server+
- CompTIA Cloud+
- CompTIA CySA+ (Cyber Security)

Awarding organisations, trade associations and other industry stakeholders who offer or have developed other qualifications which may meet the occupational requirement for this card (Level 2 award or qualification covering one of the above disciplines) may contact ECS at feedback@ecscard.org.uk to discuss updating the occupational requirements.
